SCIENCES

PYLON 1986

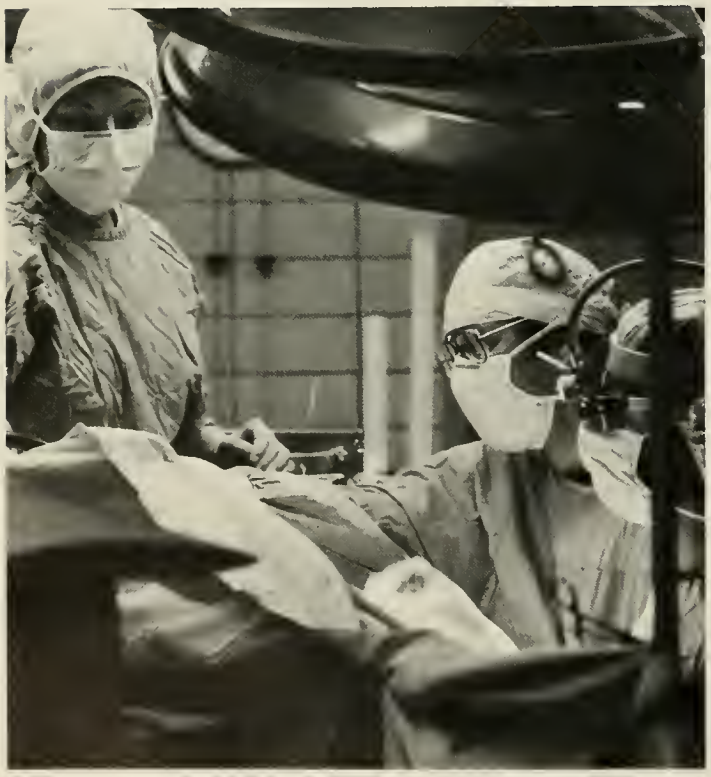
WEST VIRGINIA UNIVERSITY SCHOOL OF MEDICINE

WEST VIRGINIA UNIVERSITY MEDICAL CENTER

The West Virginia University Medical Center opened its doors in 1957, and houses the Schools of Medicine, Dentistry, Pharmacy, Physical Therapy, Nursing and Medical Technology, as well as University Hospital.

Although the WVU School of Medicine was founded in the early 1900's to offer the first two years of medical curriculum, the school awarded its first M.D. degrees in 1961.

Since the opening of University Hospital over 1500 physicians and dentists have completed their residencies here. More than 2,000 patients are seen weekly in the 50 clinics, and the Emergency Department treats some 35,000 patients yearly.

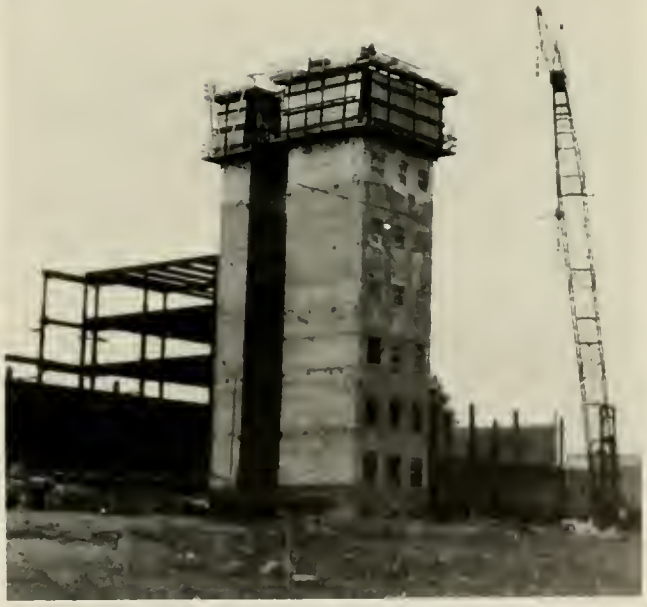


CONSTRUCTION BEGINS IN JUBILEE YEAR

1985 marked the twenty-fifth anniversary of University Hospital. The following physicians have remained on staff since the hospital's opening: Dr. Walter Moran, Surgery; Dr. Edmund Flink, Medicine; Dr. D. Franklin Milam, Urology; Dr. Herbert Warden, Surgery; and Dr. W. Eugene Klingberg, Pediatrics.

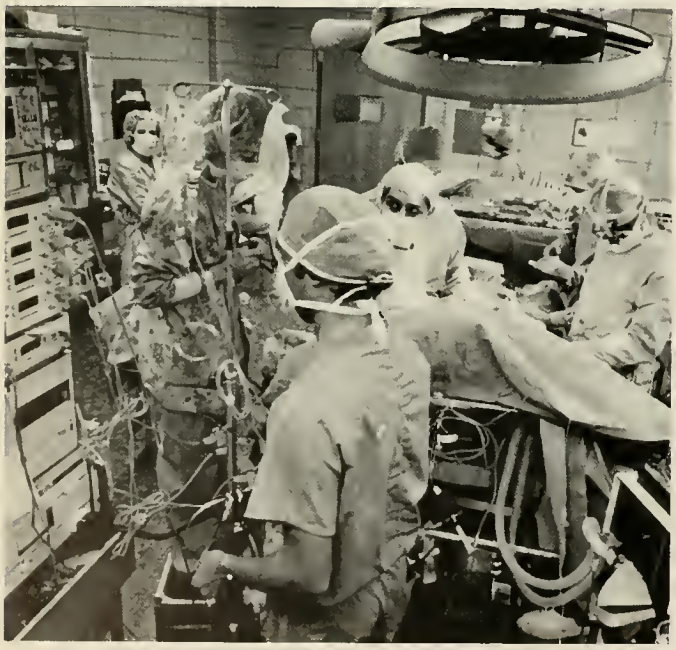
If all goes as scheduled Ruby Memoriall Hospital will open its doors in December 1987. The new facility is named for the late Morgantown industrialist, J.W. Ruby, whose widow has given the new hospital an $8 million gift.

The ten-story replacement facility will contain 376 beds. The Jon Michael Moore Trauma Service will have a rooftop helipad, and one floor of the hospital will be known as the Children's Hospital, and will include both Pediatric and Neonatal Intensive Care Units. In addition, plans are being developed for the construction of a Cancer Center and a Psychiatric Hospital.



Charleston Division

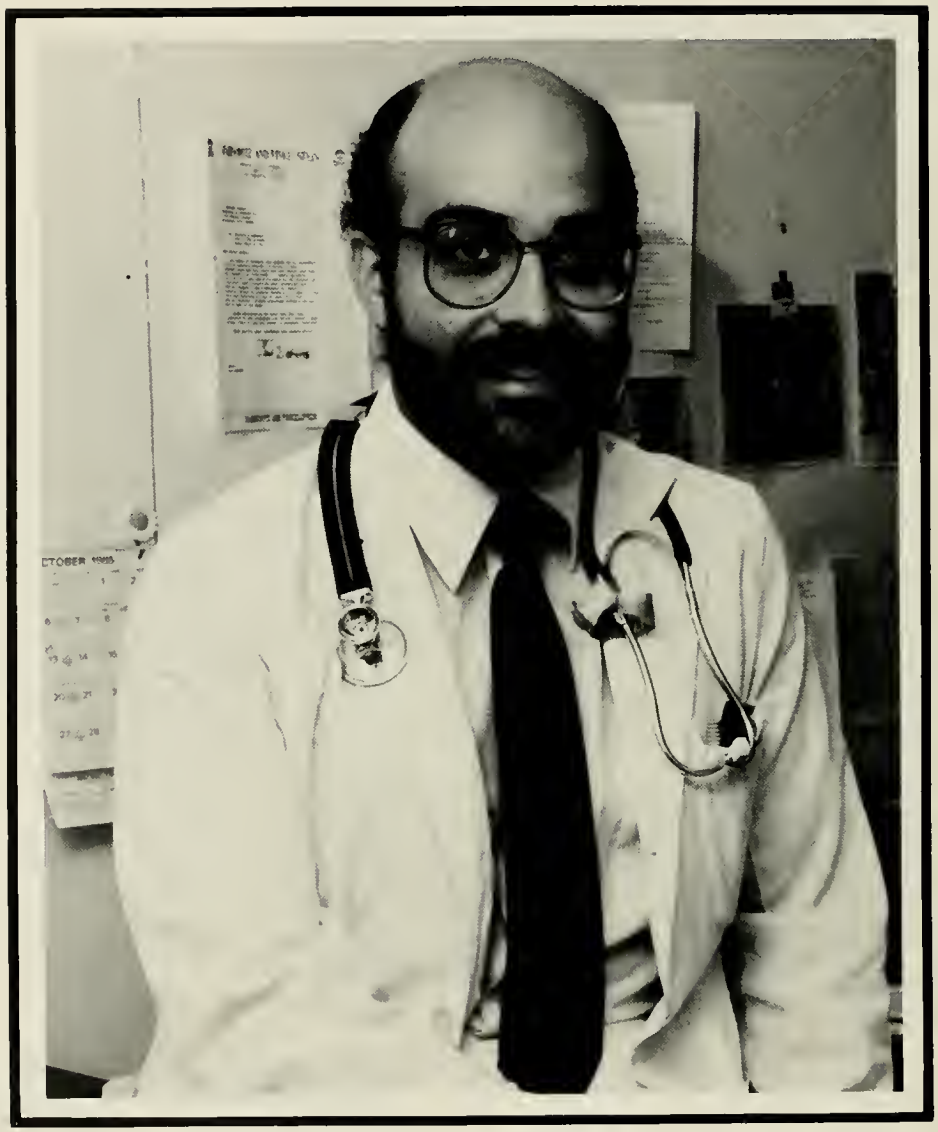
The Charleston Division of the West Virginia University Medical Center was established in 1972 with the affiliation of WVU and the Charleston Area Medical Center. Approximately one-third of the students in each class complete their clinical clerkships at CAMC, the state's largest hospital complex. The clinical education programs are based in the six million dollar education building which opened in 1977.



Wheeling Division

The Wheeling Division was started in 1974 in cooperation with the Ohio Valley Medical Center and Wheeling Hospital. The program offers elective opportunities for medical students and postgraduate specialty training. The Wheeling and Charleston Divisions enhance the number and variety of clinical experiences for WVU students.

DEDICATION



NORMAN FERRARI, M.D.

Pylon 1986 is dedicated to Dr. Norman Ferrari, senior resident in Medicine/Pediatrics. Norman certainly has done more than his share of teaching medical students. From the work-up of hyponatremia to standing at your side while performing your first thoracentesis, he is there to guide you along. In addition, he brings to his work an enormous amount of energy, humor and compassion. He is, in essence, a role model for all of us.

IN MEMORIAM

RUTH PHILLIPS, M.D.

Dr. Ruth Phillips served 21 years as a faculty member in the Department of Pediatrics. She was Director of the Cystic Fibrosis Clinic and Associate Director of the Clinic for Children with Developmental Handicaps.

She received her M.D. degree from Johns Hopkins University, took her residency training in pediatrics at the Harriet Lane Home, Johns Hopkins Hospital and then spent three years in pediatric oncology at the Children's Cancer Research Foundation at Harvard University.

The School of Medicine will honor Dr. Phillips with an annual award in her name to be given to the outstanding senior woman medical student.

You should see all the leather I have at home . . .

After the CT, MRI, DSA, get the patient's history

I told you all elective changes require a Notary's seal.

Bones, Stones, and Groans.

How does 6 months of Onc, then 6 months of Nephrology sound?

If it doesn't work, cut it out.

I made a 90 page hand-out to accompany the flow cytometer.

ALPHA OMEGA ALPHA HONOR MEDICAL SOCIETY

Alpha Chapter Of West Virginia

In 1902, six medical students at the College of Physicians and Surgeons in Chicago organized an honorary medical society to recognize excellence in their peers and teachers. Thus Alpha Omega Alpha was born, with the expressed purpose of ". . . promotion of scholarship and research in medical schools, the encouragement of a high standard of character and conduct among medical students and graduates, and the recognition of high attainment in medical science, practice, and related fields." The West Virginia University AOA Chapter was established in 1962. Membership constitutes those students and faculty who have distinguished themselves in the pursuit of their medical education, or who have attained leadership in the medical profession.

OVMC

The Ohio Valley Medical Center

Wheeling, W. Va.

The Ohio Valley Medical Center, a 453-bed regional referral and teaching hospital, has been involved in Medical Education since 1914.

OVMC has been the headquarters of the Wheeling Division of the West Virginia University School of Medicine since 1974 through a major affiliation with the West Virginia Board of Regents.

Well-structured summer externships are offered for students between their first and second years of medical school. In addition, a wide variety of fourth year selectives is offered. Free room and board is provided externs and fourth year students. Summer externs also receive a monthly stipend.

Full-time residencies for graduates are conducted in General Surgery, Internal Medicine, Obstetrics-Gynecology, and Radiology with affiliations in Urology, Plastic Surgery, and Family Practice. The program includes liberal stipends and benefits for residents.

The Ohio Valley Medical Center is fully accredited by the Joint Commission on Accreditation of Hospitals.

For Information
Call: (304) 234-8157
Write: Jeffrey S. Shultz, M.D., Chairman
Medical Education Committee
Ohio Valley Medical Center
2000 Eoff Street
Wheeling, West Virginia 26003

In recent years, Ohio Valley Medical Center has conducted an extensive modernization program providing the most comprehensive health care institution between Pittsburgh, PA, and Columbus, Ohio.

The Education and Administration Building was dedicated on November 11, 1973, followed by the opening of the Mental Health Building on December 18, 1974. The Mental Health Building is shared by the Psychiatric Department of Ohio Valley General Hospital and the Northern Panhandle Behavioral Health Center.

The West Building was dedicated on April 27, 1980, and provides the ultra modern core for the Medical Center. The facilities include 14 operating rooms for inpatients and outpatients, Radiology, Radiation Oncology, Obstetrics-Gynecology, Emergency-Trauma Department, Intensive Care Unit, Cardiac Care Unit, Progressive Care Unit, 200 patient beds, cafeteria and main lobby.

Following completion of the West Building, extensive renovation and rehabilitation has been performed on the East Building providing modern facilities for Pathology, Respiratory Care, Physical Therapy, Pharmacy, Intravenous Therapy, Cardiac Testing, Neurological and Non-Invasive Testing Laboratory and other support services. Outpatient Clinics, important in the conduct of the Medical Education Program, are centered in this building.

In addition, a Medical Office Building has been constructed adjacent to the main hospital campus.

To the New Physician . . . .

Congratulations on reaching this landmark in your professional career. When you are prepared to open your first office, our officers, members and staff are ready and willing to assist you in selecting a town or city and to render any other help you may desire.

WEST VIRGINIA STATE MEDICAL ASSOCIATION

P.O. Box 4106

Charleston, W.Va. 25364

Telephone: (304) 925-0342

At St. Francis Medical Center we're innovative.

ONE THING YOU HAVE TO KNOW about Pittsburghers. We're innovators. We opened the West, put pickles in every ice box in America, and devised the most relentless defense in football history. Our iron and steel span rivers and caress clouds all over the world.

St. Francis Medical Center aligns itself with this proud tradition. It was the *first* general hospital in the United States to treat alcoholism as a disease. One of our medical staff members introduced the *first* electrocardiographic machine to American physicians. We were the *first* in Pittsburgh to treat cancer with a betatron. We opened the *first* unit in Pennsylvania for the treatment of adolescent chemical dependency and the *first* walk-in clinic in the city for heart catheterization.

The largest hospital in Western Pennsylvania, St. Francis is a teaching hospital with eight programs:

- Transitional
- Internal Medicine
- Diagnostic Radiology
- Psychiatry
- Oral and Maxillofacial Surgery
- Ophthalmology
- Physical Medicine and Rehabilitation
- A Fellowship in Cardiology

We have more than 200 beds in a separate psychiatric facility and the largest Department of Rehabilitation Medicine between Philadelphia and Chicago. And currently, in order to continue to treat our patients' minds, bodies and spirits with the level of excellence we have established, we are involved in the largest building project in our history, Our administraiton has also undergone the most extensive corporate restructuring of any Pittsburgh hospital.

- Hand Surgery
- Medical Oncology
- Nephrology
- Pathology
- Pulmonary Diseases
- Therapeutic Radiology
- Trauma

Allegheny General Hospital is a 726-bed regional referral and teaching hospital providing sophisticated patient care to Pittsburgh and the surrounding four-state region. The Hospital has recognized expertise in the areas of trauma, orthopedics, cardiovascular, neurosurgery and cancer. Last year the hospital cared for more than 25,000 patients.

Allegheny-Singer Research Institute, the hospital's research arm, provides house staff officers with challenging opportunities in many areas of both clinical and basic research.

For more information about medical education programs at Allegheny, contact:

Flower Memorial Hospital

Sylvania, Ohio Family Practice Residency

Flower Memorial Hospital, part of one of the nation's most innovative health care concepts, offers a three-year AMA-approved family practice residency

Flower Memorial Hospital, a 267-bed acute care general hospital, is located in Sylvania, Ohio, on a 91-acre campus along with its affiliated institutions, Lake Park Hospital, a rehabilitation hospital, and Crestview Club Apartments, a retirement facility. Adjacent to Flower Memorial is The 5300 Building, an ultra-modern physicians office building with the top floor housing The Family Physicians Association of Flower Memorial Hospital. Here our residents see their own, individual group of patients, attend seminars and other teaching meetings, and work with family practitioners to develop their medical and behavioral science skills

Flower Memorial Hospital's 10-year old facility includes coronary and intensive care units, cardiac and pulmonary rehabilitation programs, an emergency room averaging 25,000 visits per year, complete neurophysiological services, a 20-bed maternity unit with family centered programs, and The Oncology Center, a major cancer referral center in northwest Ohio and southern Michigan. Innovative programs include a Rheumatology Progressive Care Unit and The Center for Alcoholism Treatment for the rehabilitation of persons dependent on alcohol or other mood-altering chemicals.

Lake Park Hospital has geriatric programs, a multi-faceted team rehabilitation emphasis, and a planned progressive care unit for cancer patients

For further information contact Dr. R E Scherbarth, director of the residency program, or The Family Physicians Association of Flower Memorial Hospital, 5300 Harroon Road, Sylvania, Ohio 43560, phone 419-882-1100.
